

# About the Clifton Lions

The Lions were founded in 1917 in Illinois by Chicago businessman Melvin Jones. Today it is the world's largest service organization with over 1.4 million members and is the leading international organization working for improvement of eye health worldwide. From these beginnings, Lions service work now encompasses diabetes, hunger, environment, and childhood cancer.

The Clifton Lions were organized in 1969 and from modest beginnings, have grown into an active service organization in the Clifton-Centreville-Fairfax area. In addition to community service, the club makes monetary donations to over 30 local, state, national, and international charitable organizations. We also sponsor citizenship awards, sponsor Clifton area Boy and Cub Scout troops, and support the Lions Youth Camp.
